

## **IB/AP Exam Conflicts - Track and Field 2019**

IB/AP exams take place at times dictated by outside bodies. Where they are required components for PSP graduation, in 2019 we will aim to accommodate student-athletes who have exam conflicts with specific individual events at district and regional track and field meets. No accommodations are made for relay teams containing the student-athlete (put in a replacement) and no accommodations need to be made for Para athletes as they advance directly to provincials with no qualification necessary.

School representatives will complete the form below to provide the necessary information for district and regional meet directors/entry and results managers. Please see the scenario(s) below to determine the accommodation available to your student-athlete and be certain to view district meet and exam schedules.

- 1) **Conflict only at the district meet** = the athlete is auto advanced to your regional event in the event(s) in conflict provided they are listed on the back of this form.
  
- 2) **Conflict only at the regional meet** = provided the athlete advanced to regionals based on their performance at districts, the time/distance earned in district competition will be compared to the top 4 times/distances from the specific event at their regional meet. If the time/distance would have qualified the athlete for provincials (placed in the top 4) in the regional event, the athlete will advance to provincials as an additional advancer in that event(s). Note that ties cannot be broken by places in a heat/final, next best throw, or number of faults. The athlete will not be included in team point scoring for the regional meet. Note that no athletes who did qualify are displaced by the additional advancer to provincials. We simply advance the top 4 who competed at the regional meet and the additional advancer(s). For seeding heats/lanes at provincials, the district result becomes the seed time/distance, but no place data is carried forward for the program or seeding.
  
- 3) **Conflict in the same event at the both district and regional meets** = the athlete will be offered the opportunity to compete at another district meet *in their region* to obtain time(s)/distance(s)/height for specific events. If the athlete is unable to compete in the event(s) at the scheduled time of another district meet in their own region, no additional accommodation can be made. Entry of the athlete to any events outside of their own district meet will be made by meet management with information provided on this form, not on Trackie. The athlete will obtain time(s)/distance(s)/height at the outside district event as an outside athlete and will not be included in the results of that district. The time(s)/distance(s)/height obtained by the athlete at this outside district event will be compared to the time/distances at their own district meet. If the athlete would have advanced to their regional meet under their own district advancement rules, we revert to the procedures in 2) to see if they would advance to provincials. Only events where they would have advanced at their own districts will be considered for 2). Again, no athlete will be displaced and by an additional advancer(s) and the athletes will not score team points for their school for district or regional competition.

***Please see your district/regional schedule to determine if the student-athlete does indeed have a conflict. Complete one form per athlete and submit to your Regional NSSAF director by 5pm May 6<sup>th</sup>.***
