	o 70 minutes of session

	Any accompanying person has to arrive to the dojo 5 minutes before the end of the session, waits at the entry, and
_	respects the security distance together with the other accompanying people
Hygie	ne Recommendations to be Performed before Arriving to the Dojo

	take into account the configuration of the dojo, but they have to guarantee that the sanitary security distance is respected
	An instructor assistant accompanies the athletes who require special attention
	Security distance to be marked out in the training area in order for each <i>cohort</i> to know where they can change
	Athletes place their bags in the assigned location and take the tracksuit off, below which they wear the judogi,
	folding it carefully and placing it in their bag (along with the coat, if any).
	Athletes put the zori/slippers on the edge of the tatami, taking out the bottle, the tissues and the sanitizing
	gel/liquid. All other personal belongings have to be kept in the bag (telephone, etc.)
	Athletes sit on the tatami, the legs turned to the exterior, and apply sanitizing gel/liquid to their feet and then to their hands
