

Round Robin

Round Robin (RR) Play provides a structured rotational format of play for any number of players. Round Robin play is a tool used to help organize play for skill group play times.

While a true Round Robin involves each player playing every other player through the full rotation, due to the size of some round robin groups and the time constraint to play the session, this may not always happen.

- » **You do not need a partner for round robin play.**
- » **You need to arrive 15 minutes early** and sign up for the round robin session. We will start right on time.
- » Once signed up, assist with any court setup required.
- » It is preferred you stay for the whole session, unless there are spares to cover you.
- » The number of courts to be used will depend on how many players sign up.
- » There may be a cap on players allowed to sign up, depending on court availability.
- » Round robin sheets include 6-7 games, which should be able to be completed in a 2 hour time period.
- » We will time games to 12 Minutes
- » Once games are complete help pack up before leaving.
