Referee Symposium | April 22, 2022

Officials perform a vital role in the sport of Judo at all levels and are the constant third player on the mat. And, without their presence, the matches would not happen. No matter how you encounter Judo, the Refereeing Symposium is designed to provide useful tips and information for personal development and training and will help ensure that both you and athletes know the rules. Success on the mats is a function of understanding the nuances of these changes and how it will affect the matches and the activities of the players. We highly recommend that all referees and interested high-level coaches consider this a must-attend event.
