

CLINIC SCHEDULE

ADVANCED BEGINNER / INTERMEDIATE CLINICS

Clinic #1 - Mini Bootcamp - Beating Bangers

8:30 - 10:30 AM / Max 12 participants

Do you struggle with playing against players known as 'Bangers'? This 2-hour mini Bootcamp is designed specifically for you. In these two hours, we will focus on specific skills such as volleys, controlling the pace of the ball and returning the serve along with other strategies to help you learn how to take back control of the court.

Clinic #2 - Drill & Play - Soft Shots

10:30 - 12:30 PM / Max 12 participants

This edition will focus on improving the quality and consistency of your soft game once you get to the NVZ. The first hour of this session will include drills and drill-based games to work on certain skills & concepts while you are near the net. The remaining 30min will be coach-mentored gameplay to help reinforce those concepts and skills.

INTERMEDIATE / ADVANCED CLINICS

Clinic #3 - Performance Series - Learn to Drill - Movement & Footwork

12:30 - 2:30 PM / Max 12 participants

By popular demand, we are introducing this session to help improve your game on your schedule! The focus will be on teaching you the most effective and efficient movement and footwork while on the court. As well as help increase your consistency every time you contact the ball. Be prepared to sweat, as we will be running you through these drills throughout the session!

Clinic #4 - Performance Series - Playing with Purpose

2:30 - 4:30 PM / Max 12 participants

Hitting the ball where you want, when you want and how you want is crucial to taking that next step to becoming a more advanced player. Whether it's avoiding a dominant forehand, targeting a weaker player or hitting the ball to an open space on the court. Recognizing the opportunity is one thing, executing is another. Time to start executing!

We will work on strategies and skills that will include, but are not limited to, soft shots at the non-volley zone (NVZ), third shot options, competitive serves and returns and transitioning to the NVZ.
