

IB/AP Exam Conflicts - Track and Field 2023

IB/AP exams take place at times dictated by outside bodies. For 2023 we will aim to accommodate student-athletes who have exam conflicts with specific individual events at district and regional track and field meets. No accommodations are made for relay teams containing the student-athlete and no accommodations need to be made for Para athletes as they advance directly to provincials with no qualification necessary.

School representatives will complete the form below to provide the necessary information for district and regional meet directors and entry and results managers. Please see the scenario(s) below to determine the accommodation available to your student-athlete.

1) **Conflict only at the district meet** = the athlete is auto advanced to your regional event in that event(s) with no seed time/distance via this form.

2) **Conflict only at the regional meet** = provided the athlete advanced to regionals based on their performance at districts, the time/distance earned in district competition will be compared to the top 4 times/distances from the specific event at their regional meet. If the time/distance would have qualified the athlete for provincials (placed in the top 4), the athlete will advance to provincials as an additional advancer in that event(s). Note that ties cannot be broken by places in a heat/final, next best throw, or number of faults. Also note that the athlete will not be included in team point scoring for the regional meet and no athletes are displaced by the additional advancer to provincials. We simply advance the top 4 who competed at the regional meet and the additional advancer. For seeding heats/lanes at provincials, the district result becomes the seed time/distance.

3) **Conflict in the same event at the both district and regional meets** = the athlete will be offered the opportunity to compete at another district meet **in their region** to obtain time(s)/distance(s) for specific events. If the athlete is unable to obtain compete in the scheduled event(s) of a district meet in their own region, no additional accommodation can be made. Entry to the outside district meet will be made through this form and not done on Trackie.

The athlete will obtain time(s)/distance(s) at the outside district event as an outside athlete and will not be included in the results of that district. The time(s)/distance(s) obtained by the athlete at this outside district event will be compared to the time/distances at their own district meet. If the athlete would have qualified for their regional meet under their own district advancement rules, the athlete will be auto advanced to regionals in the specific event(s) where qualification was met. At this point we revert to the procedures in 2) above. Again, no athlete will be displaced and by an additional advancer and the athletes will not score team points for their school for district or regional competition.

Please check your district/regional schedule carefully to determine if the student-athlete does indeed have a conflict and then complete one form per athlete. Submit to your SSNS Regional Director.

I declare that the information below is accurate and represents the spirit and ideals of School Sport Nova Scotia.
