

Athletics For All 2024

In December 2023 Athletics Canada announced a new \$350,000 grant program titled, “Athletics for All”, designed to remove barriers and increase sport participation for two targeted populations: newcomers to Canada and athletes with a disability.

Athletics New Brunswick has successfully applied for part of the grant and is committed to realizing the vision of “Athletics For All” by emphasizing inclusivity, community engagement, accessibility, skill development, integration, awareness, and advocacy in athletics. Through a multifaceted approach including regional events, a provincial finale, teacher and coach skills clinics, and strategic partnerships with organizations like the Saint John Reds Track Club and ParaSport NB, ANB aims to make athletics accessible to individuals with diverse backgrounds, including newcomers and persons with disabilities.

Entry is Free for each participant!
