Medicine Hat Pickleball Club Members (MHPC).

As our club continues to grow and thrive, we've recognized the need for a unified and official presence online.

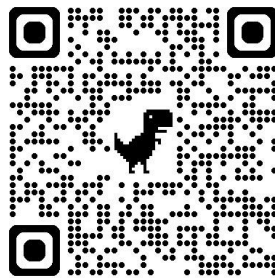

Our current Facebook group, while wonderful, is not directly managed or administered by the club's Board of Directors. With this in mind, your club board has made the decision to move forward with an "Official and Board Approved" Facebook Group.

As of this date, all future updates, events, and news will be posted exclusively on our official club social media pages. This change is to ensure consistent and accurate communication aligned with the standards, ethics and policies established by the MHPC.

We appreciate your understanding and look forward to keeping everyone informed through our official channels.
