We have been offering this program for several years now and the attendance and fun have been increasing year after year.

The program is dynamic and combines activity with competition and problem solving. Each day brings about a new set of activities and culminates around Judo.

The participants require NO previous experience in Judo at all!

This program is designed for everyone and anyone.

It builds Confidence, provides some very basic Self-Defence and movement skills to help participants learn to fall safely, as well as fend off attack and get away safely.

All head leaders are Coaches of Canada certified and are members of Judo BC/Judo Canada.
