

SPORTS SUMMIT

The Sports Summit was created so that intimate and meaningful conversations can happen around the business of sports. At large conventions, National Sporting Organizations could not make genuine connections with sponsors, vendors, and sports organizations. Being in a more intimate setting will help you engage colleagues and experts in areas that may assist your organization.

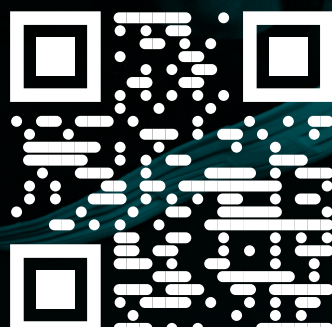

At the heart of the Sports Summit is the belief that collaboration, not competition, is the key to success in the sports business world. This event provides a unique platform for like-minded individuals to come together, share their passion for sports, and build a strong, supportive community. By participating, you can connect with individuals who share your passion and values, fostering a sense of belonging and a larger network.

We are trying to keep this unique experience as affordable and cost-effective for all National Sporting Organizations.

Please note your costs will include only the above. Flight and excursions are not included in the above pricing. All flights and excursions can be booked through your local travel agent or through our agent Karmen Chant, at kchant@exediacruz.com
