

Chilliwack Pickleball Club

Mandatory Eye Protection Policy

Effective May 1, 2025, all participants at the Chilliwack Pickleball Club must wear eye protection when playing pickleball.

Failure to follow this policy will result in the suspension of playing privileges.

If a Host speaks with a player who refuses to abide by the policy the President of the CPC will be notified. The President will undertake to remove that players ability to sign up for future play through pickleballsignuphub.com.

The player may have their playing privileges reinstated by emailing the President and indicating they will abide by the policy in the future.
