

Shasta the Pickleball Machine

General Information

April 27, 2023

DPA purchased a Tutor Spin pickleball machine (known as Shasta) in the fall of 2021 and it is currently being housed in North Delta. Diane Dickson and her pickleball machine partner Gregg Schneuer are co-housing the machine.

As the weather warms, requests for the machine have increased and this spring it has been used everyday since April 10.

DPA members can easily request usage of the machine by:

- a) Attending a training session (these can be done by recently trained members)
- b) Emailing Diane: shasta@deltapickleball.org requesting dates and time. 48 hours notice would be appreciated.
- c) Completing a "[DPA Ball Machine User Agreement](#)" (one time only).
- d) Completing a "[Shasta](#)" [sign out sheet](#) every time the machine is borrowed.
- e) Please ensure that Shasta gets recharged when not in use, and limit the machine's run time to no more than 3 hours/day.

DPA would like to purchase a second machine and is looking for volunteers in Ladner and Tsawwassen. Diane and Gregg are happy to share their experience, process and procedures with anybody interested.
