

Strathcona County Pickleball Association (SCPA)
Heat / Weather / Air Quality Policy

Preamble

The below referenced Policy was adopted by the Board of Directors on June 5, 2023.

1.0 Heat / Weather / Air Quality

Pickleball will not to be played outdoors in the following weather conditions:

- Temperature is +30 degrees or higher.
- Environment Canada issues an air quality advisory of 7-10+ on the Air Quality Health Index.
- Weather such as: hail, torrential downpours, lightning/thunder, or where a tornado warning is in effect.

Captains will review the Weather Network via their cell phone two hours prior to playing outside. If one or more of the above conditions is present, the Captain will follow the cancellation process to inform members. Captains will contact the Outdoor Director to inform them of the cancellation. An email will be sent to players and a post made to Facebook cancelling the event by the Outdoor Director.

Board Approval Date: June 5, 2023
