We apologize to Kim Stairs, winner of the 3000 metres, for not taking her splits.

N.B: Team members competing in the 50 metres and 50 metres hurdles should not feel disillusioned with the published times, which although being the official times of the Championships, are probably slower than the times actually achieved.

The timing device used by the Meet Committee starts automatically with the firing of the pistol, but is stopped manually by a team of 3 timekeepers, each holding a timing 'plunger'. Tests have concluded that it takes about 20/100th of a second for a skilled timekeeper to push the plunger following the finish of the race he is timing. As a result, a sprinter who records, say 5.7 seconds on an ordinary watch, is shown as recording 5.7 plus 20/100th, for an announced official time of 5.90, later converted to an inaccurate 5.9

Following the 1973 Championships, the OTFC brought this matter to the attention of the F.A.Q. and the C.T.F.A. No action was taken. Another protest will be filed this month.
